SWEET DREAMS ARE MADE OF THESE

Teetersaw® Introduces The Tuckins®, Flat and Loveable Plush Stuffed Animals

A good night sleep isn't complete without a huggable, loveable friend to share your dreams with. That is why Teetersaw® created *The Tuckins®* - stuffed, cuddly critters that come with their own beds to tuck them into at night.

From the creative mind of famed illustrator, Jennifer Rapp Peterson, best known for her collection of books and greeting cards, *The Tuckins* are vintage-inspired bed buddies that are so flat and soft, you'll want them with you every nighty night. They don't mind if you snuggle with them or use them as a playful pillow...they just want to be near you! When it's lights out time, little ones will love tucking each of the Tuckins in and sleep soundly all night.

Whether you prefer to snooze with a puppy, bear, kitty, piggy, monkey or bunny – you can rest assured that *The Tuckins* will provide just the right amount of dreamlike fun each night.

Beginning this fall, *The Tuckins* will settle into a retailer near you, ready to find a fur-ever home.

Teetersaw products, including *The Tuckins*, are manufactured by Pint Size Productions. For a list of retailers, please visit www.teetersaw.com or www.pintsizeproductions.net.
